

# Introducing Civacon's new Aluminum Handle for API Adaptors.

## Same Performance.

## More Choices.

Our new ergonomic Aluminum Handle for API Bottom-Loading Adaptors offers you the same durable, reliable performance you expect from Civacon equipment. Plus, the integrated design eliminates the need for a plastic hub.

Best of all, putting an aluminum handle on any API Bottom-Loading Adaptor is as simple as adding an "A" after each model number ordered. (e.g. 897-A, 897-BA, 861-A or 861-BA)

Get a handle on all the choices. Call 888-526-5657, or visit us on the web at [www.civacon.com](http://www.civacon.com).

**REAL WORLD. REAL SOLUTIONS.
